

FREE LOGS WITH

“RINGS OF FIRE”

From Waste Paper to a Paper Log in 30 seconds

Just roll up your waste magazines & papers, insert in the heavy steel **“RING OF FIRE”**

add to your fire or woodburner as free fuel. Best mixed with wood logs. It takes 30 seconds to make one paper log, they can burn for as long as a normal log. When burnt, retrieve your rings with a poker, cool and re-use.

“A lifetime of green, free, fuel”

Save your money & be green. Don't waste your wastepaper - it may just end up in a landfill site!

£4.95

 (Three high quality 100 x 12 x 6 mm steel rings)

Elegant Ornamental Ironwork, Rye Road, Hawkhurst, Kent. TN18 5DA

Instructions for making your paper logs

**Lay a newspaper lengthways,
the width of the log you want to make,
then lay opened-out magazines and other
newspapers on top.**

**Roll tightly up into your finished log,
slide over one of the steel rings,
there's your first paper log!**

**It is best to mix your paper logs with
some wood logs for steady burning,
there is however no reason why you shouldn't
just use just paper logs.**
